Mateo Hernandez

mateo.hernandez83@example.com | (555) 0161-7469 | Raleigh, NC

EXPERIENCE

Software Engineer II — Bluefin Analytics | Aug 2023 – Present

• Fixed bugs in an internal Python reporting script used by the finance team.

• Attended weekly team meetings and demos.

• Implemented backend endpoints for account management in a Java service used by 40,000 users.

• Participated in sprint planning with product managers.

Software Engineer — Northwind Logistics | Nov 2021 – Sep 2023

• Built and maintained REST API services in Python and Go handling customer orders in production.

• Built event-driven consumers on Kafka with idempotent processing and retries across services.

• Supported customer escalations with the support team.

• Wrote a few unit tests for new features.

Software Engineer — Orbital Freight | Aug 2019 – Sep 2021

• Read messages from a Kafka topic in a batch job.

• Wrote SQL queries to pull weekly reports.

• Joined the on-call rotation for an internal tool.

• Updated internal documentation for the team wiki.
